

QPM Low Pressure Pumps

QPM SERIES

- Super quiet gerotor low pressure hydraulic pump with integrated motor
- Ideally suited to offline cooling or filtration systems as well as oil transfer systems
- Compact design
- Maximum pressure of 10 bar
- Electric motors 3 phase
380-420V/50Hz, 440-500V/60Hz IP 55
- Other voltages, 1-phase on request
- Fluid port : suction G1½ / pressure G1
- OLAER also proposes a large range of 'screw pumps' for high circulation flow rates
