

Fawcett Filter Elements

FB SERIES

- Elements to suit the discontinued Fawcett filter series
- 'B' type elements for standard pressure and suction filter applications for oil service
- Standard nitrile seals on all elements (indicated by 'L' in part number). For other seals add alternate seal list price to standard element price and change 'L' in part number to 'V' for viton or 'B' for butyl
- Elements are nominally rated for their filtration level

| part number | A (mm) | B (mm) | C (mm) |
|-------------|--------|--------|--------|
| B070 | 113 | 100 | 39 |
| B200 | 198 | 130 | 57 |
| B400 | 208 | 175 | 82 |

| part number | filtration level | application |
|-------------------|------------------|-------------|
| B70/5/L | 5µ paper | oil service |
| B70/10/L | 10µ paper | |
| B70/25/L | 25µ paper | |
| B70/75/L | 75µ wire mesh | |
| <i>200 series</i> | | |
| B200/5/L | 5µ paper | oil service |
| B200/10/L | 10µ paper | |
| B200/25/L | 25µ paper | |
| B200/75/L | 75µ wire mesh | |
| <i>400 series</i> | | |
| B400/5/L | 5µ paper | oil service |
| B400/10/L | 10µ paper | |
| B400/25/L | 25µ paper | |
| B400/75/L | 75µ wire mesh | |
