

Accessories & Spare Parts

CONTROL UNITS, ADAPTORS & COMPONENTS

- These spare parts may also be considered as accessories. For applications requiring increased numbers of level switches or stainless floats these prices may be used to determine the list price for the 'special' unit. Note that there are limitations to all the models and we therefore recommend contacting OLAER for any special applications
- Thermotronik M/M offers continual LED display of temperature
- Thermotronik 6 offers LCD display of temperature
- FSA may be added to existing Nivotemp/vent units requiring only one tank port for fluid filling, sampling, tank breathing and also provides stilling for level monitoring to reduce the effects of sloshing
- Changeover units are available, rather than switches, upon request for level monitoring

part number	mounting
electronic control units for remote mounting	
1410799	electronic control unit only with 4 adjustable temperature switching points
1410899	electronic control unit only with 6 adjustable temperature switching points
specialised adaptor	
FSA	quick fill, sampling and stilling tube adaptor to suit Nivotemp/vent
probe components	
K8	bi-stable level switch to suit nivotemp/vent M
K10	bi-stable level switch to suit nivotemp/vent
TMO##	normally closed temp. switch to suit nivotemp/vent M
TMS##	normally open temp. switch to suit nivotemp/vent M
TKO##	normally closed temp. switch to suit nivotemp/vent
TKS##	normally open temp. switch to suit nivotemp/vent
SK161	NBR float to suit nivotemp/vent M
SK601	PU float to suit nivotemp/vent
SK604	PU float to suit nivotemp/vent 63 and 23 series
SK221	stainless steel float to suit nivotemp/vent
1020101	NBR gasket (flat seal) to suit nivotemp/vent
9009113	cork gasket to suit nivotemp/vent
852 507 MIC	box of 3 replacement 10µ elements to suit nivotent M
852 507 SM-L	box of 3 replacement 3µ elements to suit nivotent M
852 519 MIC	box of 3 replacement 10µ elements to suit nivotent
852 519 SM-L	box of 3 replacement 3µ elements to suit nivotent
